13th Edition

The data for this edition was collected during the **third week of September 2020**. It is permanent **BETA** list as many highly cited authors does not developed yet a public personal profiles in Google Sch very easy and free task and with a surprisingly large coverage of both contributions and citations. It is also probably we overlooked a few profiles, so please contact us with any information regarding gaps, mis Our editor is available from this email address [Isidro F. Aguillo](mailto:isidro.f.aguillo), but we strongly suggest to read [Methodology](#) in advance.

Inclusion/Exclusion criteria

- 1. The list consist of the most highly cited researchers (**h-index => 100**) according to their public profile in the **Google Scholar Citations** database. The authors are ranked first by **h-index** in decreasing c appear, then by the **total number of citations** as a secondary criteria.
- 2. Only **living authors** are included. Please inform us of the profiles of deceased researchers included unnoticed.
- 3. Only authors citing an **email address** in their profiles are included. A list of [profiles without email](#) is provided.
- 4. The high energy physicists with **hyper-authored papers** are excluded.
- 5. Authors with **more than one profile** are not added
- 6. For informative propros we publish a [list of unclean, incomplete or incorrect profiles](#). Comments and suggestions are welcomed (in a few days).
